

Credit Card Interest & EMI Info

TYPE Credit Card Billing	URGENCY MEDIUM	LANGUAGE Gujarati	ESCALATION No
-----------------------------	-------------------	----------------------	------------------

SUMMARY

₹31,800 ₹4,200
EMI
.

[CSR Translation] The customer wants to know how much interest will be charged if only the minimum amount of ₹4,200 is paid from the total outstanding amount of ₹31,800. They also request information about converting the outstanding amount into EMI and the applicable interest rate.

SUGGESTED RESPONSE OPENING

" . EMI
."

[CSR Translation] "Hello, thank you for your question. I will provide you with information about credit card interest and EMI options."

KEY ISSUES

Credit Card Interest	If only ₹4,200 minimum due is paid on ₹31,800 outstanding, interest charged will be $\text{₹}31,800 \times 3.49\% = \text{₹}1,109.82$ for the next month.
EMI Conversion	EMI tenures available are 3, 6, 9, 12, 18, and 24 months with specific interest rates (not provided in KB).

RECOMMENDED CSR ACTIONS

#1 Explain Interest Charges

STANDARD

Inform the customer that paying only the minimum due of ₹4,200 on ₹31,800 outstanding will incur an interest charge of ₹1,109.82 for the next month at 3.49% monthly rate.

Assigned to: Credit Card Support

#2 Provide EMI Details

STANDARD

Advise the customer about EMI conversion options with tenures of 3, 6, 9, 12, 18, and 24 months. For exact interest rates and application process, direct them to the nearest branch or customer care.

Assigned to: Loan & Credit

ESTIMATED RESOLUTION TIME
