

Interest and EMI Details

TYPE Credit Card Billing	URGENCY MEDIUM	LANGUAGE Gujarati	ESCALATION No
-----------------------------	-------------------	----------------------	------------------

SUMMARY

₹4,200
EMI .

[CSR Translation] The customer wants to know how much interest will be charged if the minimum outstanding amount of ₹4,200 is paid, and how the remaining amount can be converted into EMI along with its interest rate.

SUGGESTED RESPONSE OPENING

", EMI .
EMI ."

[CSR Translation] "Hello, thank you for your inquiry regarding your credit card outstanding amount and EMI options. I will explain the interest rates and EMI options to you in detail."

KEY ISSUES

Interest on Minimum Payment	Outstanding ₹31,800 with minimum payment ₹4,200; interest calculated at 3.49% on ₹27,600 balance results in ₹962.64 interest
EMI Conversion	EMI tenures available: 3/6/9/12/18/24 months with specific interest rates applicable

RECOMMENDED CSR ACTIONS

#1 Explain Interest Calculation	STANDARD
Inform the customer that paying only the minimum ₹4,200 on ₹31,800 outstanding will incur interest on the remaining ₹27,600 at 3.49%, amounting to ₹962.64.	
Assigned to: Credit Card Billing	

#2 Provide EMI Options

STANDARD

Advise the customer on converting the outstanding amount into EMI with available tenures of 3, 6, 9, 12, 18, or 24 months and explain the applicable interest rates for each tenure.

Assigned to: Loan & Credit

ESTIMATED RESOLUTION TIME

1-2 business days
